

**MITCHELL**  
FURNITURE SYSTEMS

High-carbon steel pedestal folding legs with solid-core and high-pressure laminated plastic tops should be specified when heavy-duty table demands are encountered. Mitchell Fold-0-Leg Tables match that design strength with exclusive features, plus the sizes and styles best suited to your specific requirements. Quality workmanship, materials and exclusive features such as the patented Jack-Knife braces provide Mitchell value and long life to each Fold-0-Leg table.

**SOLID TOP CONSTRUCTION**

High-pressure laminate tops with balanced backer sheet and bull-nose vinyl edge molding. Top understructure features a complete 360° apron of cold-rolled and formed 16 gauge steel providing the utmost in durability for all commercial, industrial and institutional uses.

**PATENTED JACK-KNIFE FOLDING BRACES**

Eliminates rattle, end-play and torsional movement. A simple, strong compression spring permits easy opening and folding with one hand.

**AMPLE KNEE CLEARANCE**

Set-back design of vertical uprights provides ample room for 360° seating.

**TOUGH**  
STABLE AND STRONG

**OPTIMUM STABILITY**

The combination of solid-core tops, pedestal arch design and extra cross bracing of high-carbon steel leg units maintain strength and stability through years of hard use.

Mitchell rectangular Fold-0-Leg tables are available in 18", 24", 30", and 36" widths and 48" 60" 72" and 96" lengths. Height of each Fold-0-Leg model is 29".

Midnight Brown powder coated metal parts.

Vinyl edges are same color. Walnut is standard tops pattern and color. Hundreds of special colors and patterns are available through factory consulting.
