

Testimonial for Mitchell Furniture Systems

In designing and planning our new church home, we were extremely diligent in ensuring that we spent our donated funds on products with proven quality and longevity. We needed to find tables that could be used for multiple uses and in many locations. Having purchased bench tables from Mitchell Furniture for our current school lunch room over 20 years ago, and seeing those tables in constant use for school and church functions, made us realize that we wanted to look to Mitchell Furniture Systems to provide us with tables for our new Commons area of the church. We received excellent support in helping determine the most suitable table and laminate finish to match our needs and color palette. Our order was processed promptly and delivery was made in time for our church dedication service and reception. Our facilities manager and volunteers really appreciate how easy the tables are to fold and move. Our children's ministry staff values the hygienic, easy to clean surface and safety locking system. We will certainly look to Mitchell Furniture again in the future as we continue to grow and expand our new facility, knowing that our money was wisely spent.
