

Our Fold-N-Roll tables are designed so that you can sit around them without having a table leg “cramp your style”. That means free leg and knee space 360° around the table! Enjoy selecting a table shape that will enhance your dining hall: round, rectangle, square, hexagon, oval, octagon and elliptical. Mitchell has a shaped table that will add charm and personality to your room. Choose either 27-in. or 29-in. fixed height tables. In addition you have a choice of adjustable height tables in a range from 22-in. to 29-in. and also from 29-in. to 36-in.

Pick a Fold-N-Roll Shape that Best Fits Your Space and Attitude

STURDY RECESSED LEGS

15 YEAR WARRANTY

100's of Laminate Choices

SPECIFICATIONS

Table Top Supports

1-3/4" D x 16-gauge cold rolled steel apron channels with rounded edges and dressed off end fittings for safety.

End Legs

"T" shaped pedestal base, 1" x 2" heavy, rectangular steel tube. These sturdy legs are recessed providing ample knee clearance. Available in nickel chromium plated or black powder coat finish.

Casters

Four, 3" diameter, swivel, ball bearing type, non-marring casters.

Table Tops & Edge

Choose either our custom DuraEdge™ Polyvinyl, extended bullnose edge on 3/4" Resin Wood core, topped with high pressure laminate and balanced with durable Gator™ black backer. Or tops edged with Mitchell's DuraBond™ black Polyurea, moisture retardant edge on 3/4" MDF core, topped with high pressure laminate, with a rigid, black Phenolic, moisture retardant backer.

Fasteners

Tops are attached with full threaded, hex head screws with a minimum holding power of 300lbs. Each fastener is machine driven and seated. The hex head permits normal maintenance of units if required.

Safety Locking Mechanism

Steel lock rod automatically engages with the hinge when table is unfolded, making the possibility of a jackknife impossible while engaged. Side release handles enable movement up to folded position. A built-in safety stops the table just before reaching user position, easily freed by releasing side handles.

Lift-Off Feature

In the open position the table rests on four lift-off support pads, firmly holding the table in a stabilized and stationary position. Time to fold and move the table? Its four casters take over, ready to move the table to a desired location.

Height Variety

Fixed height tables in 29" or 27". Adjustable height tables from 22" to 29" and also from 29" to 36". These adjust in 1" increments and securely lock in place.

Choice of Laminate

100's of laminate choices including a variety of wood grains, solid colors and many other patterns. Mitchell works with several leading laminate providers.

Environment

Mitchell's laminate, backer, adhesive and board are certified, GREENGUARD table components, for safe and clean indoor air.

FOLD-N-ROLL UNITABLES

Folds easily for transporting purposes with Mitchell's sets of torsion bars.

Available in 8'-1", 10'-1" & 12'-1" L x 30" W and either 27" or 29" H. Mitchell offers a choice of Nickel Chromium or Black Powder Coated end legs. UniTables have automatic steel locks when the table is in the user position and steel uplocks when transporting.

LIFT-OFF DEVICE

Mitchell Fold-N-Roll tables have a Lift-Off feature, as shown here.. When tables are in the open position, four supports automatically take over, firmly holding the table in a stationary position. When transporting the table, the four casters take over.

72" ROUND TABLE

The 72" Round has (4) center leg supports at the widest part of the table. This unique feature offers two pairs of 1" x 1" box steel legs on each side of the table; each pair is recessed for comfortable seating.

ADJUSTABLE TABLES

MODEL	SIZE	SEATS	STORAGE
FR-48R-700	48" Round	6 - 8	48 x 13.75 x 40
FR-486-700	48" Hexagon	6	48 x 13.75 x 40
