

MITCHELL
FURNITURE SYSTEMS

Specifically designed to meet your needs for an efficient seating/table arrangement that sets up quickly, is highly mobile and requires minimum storage space. Fold-N-Roll capability provides easy movement from room-to-room, plus the ability to change floorplans with minimal effort. Ideal for cafeterias and multi-purpose areas. High-quality components such as a combination of nickel chromium end and center legs with jet black powder coated steel understructure and solid core high pressure laminated tops assure the long lasting quality all Mitchell products provide.

COMPACT STORAGE

Each Gemini PorTable requires only 7-1/2 square feet of floor space for storage. Heavy-duty 4" casters provide smooth and easy movement. Concealed, tamper resistant stabilizers assure effortless folding and unfolding steps. Locks secure each model in folded and unfolded positions.

FLUSH, IN-LINE SEATING

Rigid 1" x 2" welded steel tube supports are firmly positioned under each seat, eliminating the clutter of multiple upright legs and brace networks.

■ GP 12

■ GP 12/16

DIVIDED WEIGHT DISTRIBUTION

Weight on table and seats/benches is evenly distributed between horizontal supports and legs. Constant contact with floor removes possibility of table drift or movement.

FULL FACTORY ASSEMBLY

No field assembly or adjustments are necessary. Gemini PorTables are ready for immediate use.

SCUFF RESISTANT FINISH

Gemini PorTables understructure sections vulnerable to scuff marks, scratches and abrasions are protected by a stainless steel cover plate for added protection.

EASY TO CLEAN

Table tops, seats and permanently bonded edging clean quickly. Uncluttered understructure provides easy access for thorough, sanitary cleaning of the table and floors.

COLOR SELECTION

Seat laminate choices are available in solid colors of red, yellow, blue and green or in a variety of patterns from the Wilsonart® catalog. Tops are available in a wide range of solid or wood-grain patterns. Contact Mitchell Furniture Systems, Inc. for specific requests.

NO MOVING SEAT PARTS

All Gemini PorTable seats are permanently attached in fixed positions. Noise, distractions and instability often inherent with swivel-type seats are eliminated.

SPECIFICATIONS

TABLE TOPS

Supported by two full-length channel aprons, 13/4" deep, of 16-gauge cold rolled steel, with safety end dress-off fittings.

END LEGS

1" x 2" rectangular box steel with nickel chromium finish. This is a heavy duty design with 16 gauge uprights and 14 gauge cross members.

CENTER LEGS

Twin dual-type 1" x 1" square steel tube, with cushion glides to provide four-point floor contact.

CASTERS

Four heavy-duty, 4" diameter, non-marking, ball-bearing, swivel type.

LIFT ASSISTANCE

Built-in stabilizers and an extra set of spring tubes provide the necessary assistance for easy folding and unfolding.

LOCKING

Folded position – Automatic locking, manual release.
Unfolding position – Automatic locking, manual release.

Heavy-duty release handle for locking hinge. Automatic locking hinge.

TABLE AND BENCH TOPS

Plastic laminate sheets, 45 pound density particle board, balanced with backing sheets. Approx. 13/16" total thickness.

PLASTIC TOPS

Available in a variety of pleasing colors in standard plastic patterns.

EDGES

Table and bench tops banded for protection with Dura-Edge™ heavy, contoured Jet Black polyvinyl or black DuraBond™ sprayed on Polyurea.

METAL PARTS FINISH

End legs and center supports are Nickel Chromium; all other metal parts are Powder Coated Jet Black.

UNITIZED CONSTRUCTION

Welded steel brackets and fittings solidly join and position legs and braces to channel top supports. Table tops attached to unitized understructure with hex-head, Sure-Grip Screws.
